

Swimming Pool Treadmill (Model: AS100)

Set-up Instructions and Operation Manual

Congratulations! Enclosed is your Aquasizer Treadmill.

Please read the following set-up and operating instructions and make this information available to each user of your Aquasizer Treadmill.

1. Carefully unpack the treadmill and handrail from the shipping carton.
2. **Check for any signs of shipping damage.** If found, report to the carrier immediately.
3. **Please retain your shipping carton** until you have used the treadmill and are completely satisfied.
4. Review the easy set-up and operating instructions below.

Treadmill Set-up

1. After removing the treadmill from the shipping carton, **place the treadmill flat on the floor.** If the Aquasizer logo on the side panel is upside down, you need to flip over the treadmill to orient it correctly.
2. Install the metal handrail by positioning the curved end vertically and slightly forward of **the roller on the higher end of the treadmill (i.e. the front of the treadmill)** and inserting the two metal ends of the handrail over the white guide tubes located in the mounting sockets and pushing down. **The Aquasizer Treadmill is now ready to use!**

3. **Grasping the treadmill by the handgrips molded into the front of the side panels**, place the treadmill in the water in the general area where it will be used in the pool. The ideal depth is dependent on the users' height and the weight bearing the user desires. The ideal position will be where the water level is at mid-chest of the user when using the treadmill.
4. In a few seconds, the treadmill will become heavier as the internal cavities fill with water. The Treadmill includes 2 bottom wheels in the front that are purposely NOT designed to touch the ground to prevent any movement during use.

Operating Instructions

The Aquasizer Treadmill requires no external power source. It is a user-propelled unit; therefore, the power is you!

Wearing water shoes is strongly recommended during use. Also, some customers prefer wearing an aquatic weight belt, particularly when jogging or running on the treadmill.

Begin by taking hold of the metal handrail and stepping on the treadmill from either side. After a few seconds to feel comfortable with the unit, and while holding the handrail, slowly begin walking to become accustomed to the movement of the belt. This walking pace may be maintained or increased to a jog or run as desired.

The treadmill is designed to provide ease of operation for a beginner, while permitting a well-conditioned person to obtain great benefit from the natural resistance of the water. The treadmill design allows you to instantly vary the resistance by regulating your own pace. **We recommend starting slowly and increasing your pace only after you have become comfortable with using the treadmill.**

WARNING: Use the Aquasizer Treadmill ONLY when it is underwater.

To learn more about your treadmill please visit our www.HotTubProducts.com.

MOVING YOUR TREADMILL:

The Aquasizer Treadmill is equipped with wheels for ease of transport. To use, stand in front of the treadmill and pull the handrail toward you and down, which will lift the low end of the unit up. When all of the Treadmill weight rests fully on the wheels of the Treadmill you will be able to transport it easily and safely.

Cleaning and Maintenance

Your treadmill is designed to be as maintenance-free as possible. In a well-maintained aquatic environment, no cleaning of the treadmill should be required. If you would like to clean the unit, we recommend dishwashing detergent used with a terry cloth towel or new sponge. **Be careful not to use an abrasive cleaner or cleaning device** such as a scouring pad or steel wool as this will damage surfaces.

Warranty

What is covered?

This Aquasizer Treadmill ("Product") is warranted to be free of all defects in material and workmanship by Hot Tub Products LLC (HTP)

Who is covered?

The original purchaser or any person receiving a newly purchased Product as a gift from the original purchaser is covered. Otherwise, this warranty is nontransferable.

How long is it covered?

The Product and all components are covered for a period of TWO (2) YEARS from the date of purchase.

Who pays shipping & insurance for service?

If the Product or any component must be returned to a service facility for repairs, you are responsible for any packaging, freight and insurance charges. Service work in the field is not covered under the warranty unless approved in writing in advance by HTP. HTP shall not be responsible for any damage, which may occur during shipment; therefore, we HIGHLY RECOMMEND that you insure any package you mail to us. If we ship you any new or rebuilt replacement component or Product under this warranty, HTP will pay for all shipping and insurance charges. You are responsible for all shipping and insurance charges after the warranty has expired, or for service deemed not covered by the warranty.

What we will do to correct covered defects?

We will ship to you any new or rebuilt replacement component or, at our option, replace the defective part. Such replacement parts are warranted for the remaining portion of the original warranty period.

What is not covered

Any failures or damage caused by unauthorized service, improper maintenance, misuse, accident, negligence, improper assembly or installation, weather, debris resulting from any construction activities in the Product's environment, rust or corrosion as a result of the Product's location, alterations or modifications without our written authorization or by failure on your part to use, operate and maintain the Product as set out in your Operation Manual ("Manual"). All terms of this warranty are void if this Product is moved beyond the United States of America, and are then subject to the terms provided by that country's local authorized HTP Representative.

Operation Manual

It is VERY IMPORTANT THAT YOU READ THE MANUAL before operating the Product.

What you must do

Retain proof of purchase (our receipt of the registration card assures registration of purchase information but is not required); use, operate and maintain the Product as specified in the Manual; notify Customer Service of any defect within 10 days after discovery of the defect; if instructed, return any defective part for replacement or, if necessary, the entire Product for repair. HTP reserves the right to decide whether or not the Product or a component is to be returned for repaired.

Warranty registration

COMPLETE and MAIL registration form by mail or email to HTP, contact info below.

How to get parts & service

Call Customer Service at 860-469-2580, weekdays from 10:00 a.m. to 5:00 p.m. Eastern Standard Time, and tell them your name, address and the serial number of your Product. They will tell you how to get a replacement part, or, if necessary, arrange for service.

Exclusive warranty

THIS LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES OF ANY KIND EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND ALL OTHER OBLIGATIONS OR LIABILITIES ON OUR PART. We neither assume nor authorize any person to assure for us any other obligation or liability concerning the sale of this Product. Under no circumstances shall we be liable under this warranty, or otherwise, of any damage to any person or property, including any lost profits or lost savings, for any special, indirect, secondary, incidental or consequential damages of any nature arising out of the use of or inability to use this Product. Some states do not allow the exclusion or limitation of implied warranties or of liability for incidental or consequential damages, so the above limitations or exclusions may not apply to you. Warranties may vary outside the U.S.

Changes in warranty not authorized

No one is authorized to change, modify or extend the terms of this limited warranty.

Effect of state laws

This warranty gives you specific legal rights. You may have other rights, which vary from state to state.
